Welcome to the 2006 World Yo-Yo Contest

This year is my 7th year running this event, and it is continuing to grow. This year we have players from 17 countries that have pre-registered, or whom I know will be attending. We welcome players from China, The Czech Republic, Iceland and Hungary to their first World Yo-Yo Contest. It is hard to believe that just 14 years ago, in downtown Montreal, on a small stage in Rue Berri square this contest was revived by Dale Oliver. It was a bright summer afternoon, and the park was filled with jugglers and Elvis Impersonators (This is a weird, and possibly uninteresting, story. If you can corner me at the event I may tell it to you). That year Dale Oliver competed against a very young Jennifer Baybrook and an always young Dale Myrberg for the first World title since the re-conception of this event. Nobody knew where this would go. There was a small crowd, these were the first freestyles in an open competition. Duncan had some freestyles in contests they ran back during their Yo-Yo Olympics promotion, but it seemed not to go anywhere. This was the first modern yo-yo contest, and it was a vision of Dale Oliver.

So here we are 14 years later. Those three competitors are here for this year's event. Dale Oliver has not changed, Dale Myrberg still sports those suspenders, and Jennifer Baybrook is a little taller. (If you are interested in seeing videos of that contest, go to <http://www.yoyoing.com/videos> and do an advanced search for "1992." At least one of them is up).

The contest is growing. We have added a third workshop room to handle the larger turnout. We have new events like the combined division, and we still have the traditions like Lucky's BBQ. We also bring back the live internet video stream, a technology that would have just confused us back in 1992.

This year we also send our best wishes to Carol and Dennis McBride, who wanted to come but, due to health issues, are unable to attend this year. There will be an auction, with proceeds to help them through these difficult times.

But this is not my only project, I have also spent quite some time expanding yoyoing.com over the last year. Its front page is now a true jump off page to the on-line resources we provide. We have a new major section, The video site that as of the time of this writing hosts 868 yo-yo related videos that have now been downloaded almost 150,000 times in a span of three months.

But new things always make for a good party, and the World Yo-Yo Contest is the best party I can throw. Thank you for coming to Orlando and for making this something I look forward to every year.

Best wishes,

Carol and Dennis McBride, 2006 Lifetime Achievement Winners

by Joe Mitchell

This year we are honoring Dennis McBride, National Yo-Yo Grand Master and World Yo-Yo champion and Carol McBride with the "Harvey Lowe Lifetime Achievement Award".

Dennis began his yo-yo career at the age of eight, and as a child earned more than 15 yo-yo titles. He competed in many Duncan contests in his native California through the local parks and recreation departments- from playground level contests, to city level contests, to the county level and finally in California State contests. He competed until 1960, when he retired at the "ripe old age of 15."

His first yo-yo was a wooden Duncan with Egyptian fiber string- which competitors had to tune themselves. [Duncan's organizer of contests in California] "Bob [Allen] was really strict - because he would actually look at every yo-yo and if you sanded that axle, especially the width, too much, he wouldn't allow you to use it because it was an unfair advantage for tricks like double or nothing or trapeze and those kind of things" "You got about a 20 second spinner out of it, and so what you did, you had to do within that length of spin"

Dennis didn't start working professionally until the 80's. He got a hold of a couple of Tom Kuhn yo-yos - "they were so beautifully balanced and really worked great." Duncan hired him part time in the 1980's.

In 1995, the National Yo-Yo Museum named Dennis one of the initial three "National Masters" and has since elevated his title to "National Grand master."

In 1997, he went to work, full-time, for Alan Nagao with THP in Hawaii. "THP was part of a marketing strategy that Alan developed and test marketed in Hawaii, and his primary target was Japan and teaming up with Bandai" Alan hired him and Carol to come to Hawaii to train a group of kids - most were 'at-risk' kids - they formed teams to sell yo-yos. They would take them to local school assemblies and around the world - to places like Japan, Hong Kong, France, Germany, Singapore and all around the United States. Some of those kids had never left the island and were all of the sudden stars throughout the world.

"When we first went to Japan, we would do toy stores, real tight quarters, we'd hand out stickers and yo-yos to get the momentum going - a few months later, we went back with the team to Japan, by the time we got back, the thing had been ignited. On April 4, 1998, there was a yo-yo event at a sports complex outside of Tokyo - 40,000 people. It was incredible and it was all yo-yos." Dennis worked for THP for three and a half years.

In March of 1999, the Senate of the Twentieth Legislature of the State of Hawaii honored Dennis as one who "has exhibited the mastery of using a skill toy and has won the hearts of all who watch him. He has maintained a standard of excellence and is recognized as a positive and inspiring role model simply because he believes that with discipline, hard work, and enthusiasm, he can go places beyond his imagination. The Aloha Spirit is alive in mind, body, and spirit with Dennis McBride."

Dennis has performed with the Mickey Mouse Club Mouseketeers and "Yo-Yo Man" Tommy Smothers. His first professional yo-yo performance was in Walt Disney's first 3-Dimensional movie, which played exclusively at the grand opening of the Mickey Mouse Club Theater in the Disneyland theme park.

Dennis has judged major yo-yo competitions, including US Nationals and Worlds. He has produced and starred in nine yo-yo instructional videos, including his most recent 4-volume series titled "Mastering the Art of Yo-Yo Play" - most of which are still available.

Among the highlights of his career, in terms of events, are the videos he made, the April 4, 1998 event. But the real highlight, he says, are "the people we've met along the way."

Dennis' wife, Carol is an accomplished singer, humorist, and yo-yo player. Carol toured with Dennis throughout his career.

They stopped touring in 2000, when Dennis became involved as a pastor in a church in Solvang, California. They still do some local events, but they try to stay pretty close to home. They have one son, a daughter-in-law, and three grandchildren. Their son, Jamie, is also an accomplished and enthusiastic yo-yo player.
